

Multiple Warehouse Inventory Management

Magento 1

MAGE PLUGINS
for magento

Overview

The “Shipping Table Rates Options” is the additional tool to manage shipping table rates in an easy way. You may filter, append and modify records through the web interface instead of batch file uploading each time you need your rates to be changed.

or blank - matches any

We provide a number of table rate conditions so that you can be granular with your applicable rates. Items to specify include such things as country, state and postal code.

These conditions include:

- Weight vs Destination:
- Price vs Destination
- Number of Items vs Destination
